Bryan's Radical Speeches Go Against Him.

(From Our Regular Correspondent)

Washington, Sept. 28, 1896.

Feeling that the election of McKinley and Hobart is now about absolute ly assured, the republican managers purpose giving more attention to a spirited attempt, with the assistance of the sound money democrats, to put a number of southern states in the rea number of southern states in the republican column than they would have done had they considered the states necessary for republican success to be in doubt. This charge upon the south is not rainbow chasing. It is approved as good politics, and as promising substantial results, by some of the share the south is not rainbow chasing. It is approved as good politics, and as promising substantial results, by some of the share the south of the so substantial results, by some of the shrewdest workers and managers in the republican party. To start with there are four southern states—Mary-land, Delaware, West Virginia and Kentucky—which are almost certain to be carried by McKinley and Hobart and which are privately conceded by many silver men as being already lost

There is a fighting chance for the republicans to carry North Carolina, although it has been lessened by the fusing of the democrats and populists, which some republicans think ought to have been and could have been preto have been and could have been prevented. Tennessee republicans have assured the National Committee that the state can be carried for McKinley, if the Committee will lend its help to get out the full republican vote, and the Committee has promised to do so. The republicans will also make a lively fight in Alabama, not with the ex-pectation of electing the McKinley and Hobart electors, but of indirectly helping the sound money democrats of that state to carry some of the Con-gressional districts and to elect the gressional districts and to elect the gressional districts and to elect the Palmer and Buckner electors. The Alabama democrats and populists are so hot against each other that they will probably not fuse.

This is the first women's club organized in Washington during the present campaign, its object being, as stated is its constitution, "to unite the women in this community in educational work and social influence for the maintenance of the principles of the republican party in the homes, in the state and in the nation."

Bryan has proven himself to be a bigger man with the democratic machine of New York than Senator Hill Governor, John Body Thacher, wrote that letter, expressing his willingness Men and Hanged to a Tree. to run for Governor on a platform en-dorsing the Chicago platform, while declaring himself unalterably opposed to the free coinsge of silver, that Thacher would have to get off the ticket, and now, lo and behold, Thach-er is off the ticket. Center of a crowd on the Levee. The party met with no interference and no obstacles. They halted about a mile about the town. The terror-stricken wretch was given brief time for prayers. The body disappeared, but it is not known positively what became of it. The impression, however, is that it was thrown into the river.

Money in use in those countries is sliver money at its bullion value, and paper is redeemable in silver. The poorest dollar of any gold standard country can be exchanged for two of the best dollars of any free silver country. I prefer to live in a country which can do business on equal terms with the great nations of the world.

to address the same meeting. Many republican organizations in Maryland, Virginia and West Virginia, have already signified their intention to take

servative democrats who might have swallowed the free coinage doctrine, down with everything, which is being preached by Bryan. These men do not believe it to be criminal for men to be thrifty and accumulate property if need be. Some of Bryan's remarks read like quotations from the speeches of the men who started the French revolution, and no sane man wants to see a "Reign of Terror" in this country.
